Projects & Experience

Sarbathkart Website   🌐 Live Site: **https://sarbath-kart-pro.onrender.com/**

- Developed a responsive e-commerce site using React.js, Tailwind CSS, and React Router with dynamic cart and product pages.
- Built backend with Node.js, Express.js, MongoDB, and JWT for user auth, order handling, and secure API routes.
- Integrated contact and checkout forms with real-time MongoDB storage and deployed frontend/backend on Render.

Weather Application   🌐 Live Site: **https://weather-application-sd.onrender.com/**

- Created a modern weather app using Next.js, Tailwind CSS, and OpenWeather API with city and geolocation-based search.
- Used MongoDB and Mongoose to store search history, and implemented REST API routes for GET, POST, and DELETE operations.
- Deployed the full-stack app on Render, enabling real-time weather updates and persistent history management.

Portfolio Website   🌐 Live Site: **http://sridhar31-portfolio.netlify.app/**

- Designed and developed a personal portfolio using React.js and Tailwind CSS.
- Used React Router to navigate across pages (Home, Projects, About, Contact).
- Showcased projects, contact info, and tech stack in a responsive layout.
